

Leventhorpe

a business and enterprise academy

23 September 2020

Dear Parent/Carer,

Following my recent communication regarding Microsoft Teams, I am writing to ask for your help in supporting a poll to update the homework function in Teams.

In March Microsoft Teams had a function that allowed students to see all of their assignments on one page. This was changed soon after so that students had to click through individual classes. Microsoft have stated that they will restore the old function, but this has not yet happened.

If you would like to vote to restore this function click the link to the feedback forum and select 'vote' <https://microsoftteams.uservoice.com/forums/599053-schools-and-universities/suggestions/39952162-revert-assignments-format-show-all-assignments-a>

I have also emailed all students asking them to do the same.

Many thanks.

Yours faithfully,
Mr D Harvey
Assistant Headteacher
